BUY / SELL | Real Estate **18 February 2020**

Hamilton NJ home painted a pretty blue. Enter into an enclosed sunroom, ready for a bright weekend morning with the paper, and head into to the lengthy living room beyond. The kitchen and dining room are beautifully open to one another, creating a nice big space for everyone to share a meal together. Stow pantry items and seasonal essentials in the attached mudroom. A separate office opens to the deck, a nicety for those of us who work from home. A full bath ably serves the home's two bedrooms: one in the front of the home, and the generous master, which overlooks the back yard. In a convenient location, close to restaurants, errands, I-295, as well as one block from Kuser Farm Park, outdoor movie nights and Winter wonderland tours are two of Hamilton's most popular area events. Lot size - 7, 405 sqft, 2 bd, 1 ba.
