SERVICES | Other **25 April 2020**

We would like to inform our dear customers that Spójnik, despite the panic caused for reasons in which we do not believe, works without any interruptions. We only limited our work time by an hour. Opening hours and a list of our services can be found >>> HERE. Certain services, unfortunately, cannot be performed for the reasons beyond our control. Therefore, we advise you to obtain information by phone before you visit us. We also advise visiting us after two o'clock in the afternoon because then we have two workers in the office. Previously targeted neighbors, which were calling the city inspectors when we renewed the facade of the Spojnik, but also all those with similar thoughts and behaviors, we inform that we took appropriate measures to keep our business alive. Do not waste your energy. We hope that after the cessation of panic you will remember, who has hidden in the mouse hole and who was there for you. Greetings to employees of the Polish - Slavic Credit Union, Henry's Deli, European Bakery, and certainly Grzegorz and his working crew from Mundy's Liquors ... for a similar work attitude as ours. Greetings and thank you.
