JOB SEARCH | Construction Work **29 March 2021**

Need someone mechanical with or without experience who is willing to learn. We do interior & exterior residential painting in the Princeton area. Drywall repair, pressure washing, small home repairs and light carpentry are part of the job. Would like to find someone long term who might be interested in taking over the business in a few years. Must be legal and have good drivers license. Part time work available for someone with good skills too. Call or text or email me. Thanks

Steve, Trenton, NJ/Princeton area
