BUY / SELL | Electronics **22 April 2022**

Now we have Brand New Bitmain Antminer S19J Pro 104Th miners in stock.

Antminer S19J Pro 104Th/s is the newest generation a SHA-256 algorithm mining ASIC developed and manufactured by BITMAIN It is able to mine Bitcoin (BTC-- along with BSV, BCH, ABC and LTC) with a standard hashrate of ~104 Th/s for a continuous power consumption of 3,120W. This unit requires 2x NEMA 220v power ouletss, a single 2-pole 20 amp breaker per unit feeding a 240v line. 2x 240v 16 gauge 10amp rated digital ballast cords are required to plug into the Antminer's attached PSU.

The power supply is included.

S19j Pro is one of the fastest and the most efficient models for BTC mining.

These units are the absolute best miner on the market. They can be overclocked to run upwards of 140Th. There is no better time than to start mining Bitcoin!

We care about our value customers. Due to the current decreasing value of BTC, we are willing to provide better price for our potential customers.

We will only accept Wire payments or Crypto, please message us on Ebay or through our website first before making a purchase.

All goods come with a 1 year Bitmain factory warranty.
