JOB SEARCH | Home Help **27 October 2022**

Travel and work in the UK as a Healthcare Assistant under the prestigious Health and Care Worker Visa program. This unprecedented opportunity is the result of the recent inclusion of Healthcare Workers, Healthcare Assistants, and Home Care Workers in the job shortage category

This is a move by the UK government to adapt to the burden that the COVID-19 Pandemic is causing on the health system. You do not need to have a nursing or healthcare background in order to be employed as a Healthcare Assistant. There is also no licensing requirement.

Your immediate family members are eligible for visas once you are approved. There is a path to permanent residence for those who choose to settle in the UK.

For your Job placement with Work visa / work permit sponsorship and processing, No religion / Nationality Discrimination
