We are public adjusters who inspect properties for damage then fill out paperwork and turn it in on behalf of the home or business owners. We educate and protect the policy holders. We are advocates for the home owners NOT the insurance company. We are the largest public adjusting company in the country and have been around since 1993.

We are growing rapidly and are expanding with offices throughout Pa and NJ. We are looking for serious individuals to grow with us. Advancement management programs are available to those seeking the opportunity. Growth in this company is unlimited.

As crazy as it sounds if you can work part time 4 - 6 hours a week you can make $300 - $500 per week, full time considerably more.

WE ARE ADVOCATES FOR THE HOME/BUSINESS OWNERS NOT THE INSURANCE COMPANY.

You will never be outsourced or lose wages due to the economy. You can start part time and keep your current position or start full time. You set your own hours.
