Will hire a person to take care of a sick.
Seeking a solid and patient person to take care of an elderly/sick person. Up until now I took care of my mother-in-law by myself, however I just became a mother and need help. On top of this I am moving to Raleigh, NC in the beginning of December. My husband works. I don't. We would prefer if the person could travel to us, however we also offer a space in our apartment to live in.
