Auto Body Repair Shop seeks A Class Technician with experience in medium to heavy duty collision.

General Accountabilities

Fit and weld replacement parts into place, using wrenches and welding equipment, and grind down welds to smooth them, using power grinders and other tools.
Remove damaged sections of vehicles using metal-cutting guns, air grinders and wrenches, and install replacement parts using wrenches or welding equipment.
Chain or clamp frames and sections to alignment machines that use hydraulic pressure to align damaged components.
Fill small dents that cannot be worked out with plastic or solder.
File, grind, sand and smooth filled or repaired surfaces, using power tools and hand tools.
Remove upholstery, accessories, electrical window-and-seat-operating equipment, and trim to gain access to vehicle bodies and fenders.
Position dolly blocks against surfaces of dented areas and beat opposite surfaces to remove dents, using hammers.
Mix polyester resins and hardeners to be used in restoring damaged areas.
Remove small pits and dimples in body metal using pick hammers and punches.
Fit and secure windows, vinyl roofs, and metal trim to vehicle bodies, using caulking guns, adhesive brushes, and mallets.
Remove damaged panels, and identify the family and properties of the plastic used on a vehicle.
Clean work areas, using air hoses, to remove damaged material and discarded fiberglass strips used in repair procedures.
* The company reserves the right to add or change duties at any time
