Hello,
my name is Lukas and I try to find job in USA. I have a masters degree in mechanical engineering and industrial management. I'm able work as technologist, logistic, 3D drawing systems, mechanical designer..and the other. Furthermore I have experience as transmission technologist in automotive. Also I can desing remodeling houses, make 3D simulation for customers. I'm able for start work in lesspaid works too. Thank you for answer!
