I am a dedicated, honest and responsible caregiver with many years of experience. In the past, I have cleaned, bathed and dressed the elderly, run errands and managed their medication. I am very concerned about their well-being and want to keep them happy and suffering-free.

Currently, I am looking to take care of an elderly man or woman. Ideally, I would like a position that is six or seven days a week (a night position is fine, too). But, I can be flexible, so please don't hesitate to ask!

Besides caretaking, I cook yummy food and do light housekeeping. My spoken languages include Polish, English and Hungarian. I have an up to date driver's licence, my own car and a clean record. I work independently out of Central Jersey. If interested, please call anytime. Beautiful references are available, including ones from people formerly in my care.

Ewa (Caregiver), Central New Jersey
