We are looking for individual that will be a part of our team.

New employee must pass drug and background screenings (driving, criminal record etc.)
We are looking for someone with "common sense", technically inclined person to be trained as appliance/tv technician. Previous experience is a BIG+ however not necessary required under condition, that prospective candidate has some other knowledge related to field. For example any electrical/electronics circuits, mechanics of some sort, maintenance of machinery, HVAC.
Personality and Integrity is important.

Again we will provide training for the RIGHT individual.
Full time employees are offered dental insurance.
