Archangel Michael's Powerful Message To Ned Dougherty

http://catholicblog.webs.com/

The angels are coming! Do you hear them? Are you listening? Are you listening?

In 1984 Ned Dougherty had a near death experience (NDE), in which he was clinically dead for nearly an hour met a "Lady of Light" who showed him visions of his future life and the future of humanity. His NDE was guided by a deceased friend [see here]. While Ned was visiting the Vietnam veterans memorial to look for his friends name he collapsed and had a powerful encounter with Archangel Michael. Ned was given a message for America.

Excerpt from Ned's book Fast Lane to Heaven

Archangel Michael's Message:

"Your forefathers created one nation, under God with liberty and justice for all. These were men of high ideals, spiritually guided and inspired to create a nation and a civilization to be admired and respected, to set an example for the rest of the world. In exercising their free will under God's guidance and direction, they created a Constitution and a Bill of Rights for every man, woman, and child to live in freedom in the pursuit of happiness. Yet, these high minded and spiritual men were soon replaced by others who, in the exercise of their free will, chose to put their egos before God and to joust with God's plan.
