The gruesome reality of dismemberment abortion
ARLINGTON, Va. (Dr. Susan Berry) - Pro-life organization Live Action is showing a video series in which a former abortionist uses medical animations to reveal the harsh reality of abortion for both mother and baby.
The group's goal is to cut through the pro-abortion rhetoric that speaks of "tissue masses," "clumps of cells" and "products of conception," especially at a time when abortion has become a major issue in the 2016 election.
