I’m 24 years old. I come from Poland and speak English. I’m looking for a job as babysitter to help with any childcare needs and some daily responsibilities. Hard working, reliable, mature, caring and trustworthy with proven communication skills as an additional asset. If there is a need I’m quite and unconventional cook. I love kids and they love me. I’m experienced as I have been babysitting my little cousins for a very long time. I’m available all week and can start right now. It is possible for me to move and accommodate at host’s house. If you are interested, please call.
