Looking for a mature woman with experience caring for seniors. My mother is in need of a live in 24/7 caregiver. She can shower, dress, make her bed, and go to the toilet by herself. She needs a companion to watch over her, cook, clean (small apartment) and remind her to take her meds. She has early dementia. Would prefer someone who drives. She lives at the beach. Would like someone to take her for walks, doctor appointments, shopping.
